

PORTMAN

PH Bathroom sets

The Portman PH bathroom latch set includes a hookbolt bathroom lock and privacy set, maintaining a common aesthetic as our PH architectural flush pull handles.

Suits doors 38-54mm as standard, uniquely however (as pictured) the entire assembly is designed to fit flush within the thickness of a standard 44mm thick door so that no edges project beyond the door face.

The hookbolt is thrown and retracted with a vertical action which many users find easier than the typical small and fiddly rotational bathroom sets available on the market.

PH7150B/PH7300B/PH7600B

Finishes: (where shown)

SSS: Satin stainless steel (320 fine grit) to faceplate and to recess.

PSS: Bright Polished stainless steel to faceplate, recess satin stainless steel fine grit

PNP: Slightly softer and whiter in colour than PSS, nickel plate also has self levelling properties which make for a slightly smoother final finish. Polished nickel to faceplate, recess satin nickel plate

SNP: Satin nickel plate, to faceplate and to recess

WHI: White Powdercoat RAL 9003 semi gloss, other RAL colours are available, please contact the sales office

ABR: Antique Brass, to faceplate and to recess. Electrobrass plated vertically distressed giving high and low lights, lacquer sealed.

SBL: Satin Brass Lacquered. Satin brass plate to faceplate and recess. Protective lacquer sealed to assist durability and prevent patination.

PBL: Polished Brass Lacquered. Polished brass plate to faceplate satin brass to recess. Protective lacquer sealed to assist durability and prevent patination.

OBZ: Old Bronze, to faceplate and to recess. Electrobrass plated artificially patina'd and relieved giving high and low lights, lacquer sealed.

DBZ: Dark Bronze, to faceplate and to recess. Electrobrass plated heavy patination and gently relieved giving rich dark brown/black colour, lacquer sealed.
